Test Case #: 4

Test Case Scenario: End appointment and schedule appointment

Actor: Dentist

Pre-condition: User must be in appointments page

Test Case	Test Data	Test Steps	Expected Output	Actual Result	Result
Check if user can reschedule an appointment	Complain: reschedule	1. Click the Appointment Page 2. Click the complete button 3.click reschedule appointment 4.Click save 5. Click the date with preferred time in the calendar 6. Enter information in Complain text field 7. Click Save button	User can set an appointment	The scheduled appointment is posted in the calendar	PASS

Post-condition: Successfully reschedule appointment

Appendix

Patient Questionnaire

We are BS Information Technology Students from the Institute of Information and Computing Sciences- University of Santo Tomas. We are currently developing a system, DentEase, for the UST Health-Services Dental Care as part of our course requirement for Software Engineering (ICS 124). May we ask for a moment of your time to complete this survey to assess our project. Rest assured that all information gathered will be used for research purposes only.

Thank you and hoping for your cooperation!

Name: (optional) _____

Encircle the letter corresponding to your choice.

1. Were you notified when you entered an incorrect username/password?	a. Yes b. No
2. After logging in, were you directed to an error page?	a. Yes b. No
3. Were you able to successfully change/reset your password after the security questions?	a. Yes b. No
4. Is the notification during the change your password phase useful?	a. Yes b. No
5. Were you able to choose your preferred date?	a. Yes b. No
6. Were you able to choose your preferred time?	a. Yes b. No
7. Is there a help function in the set appointment tab?	a. Yes b. No
8. Were you able to update your profile anytime?	a. Yes b. No
9. Were you able to check your profile anytime?	a. Yes b. No
	a. Yes

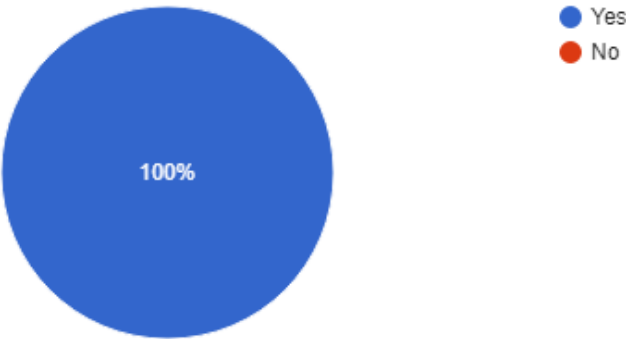

10. Were you able to save your updated medical history?	b. No
11. Is there an error message that informs you when you type an invalid information?	a. Yes b. No
12. Is there an error message that informs you what to do when you type an invalid information?	a. Yes b. No
13. Is there an error message that informs you if the schedule that you have set is already taken?	a. Yes b. No
14. Is there a notification which informs you which fields are required to be answered?	a. Yes b. No
15. Were you able to cancel your prior schedule anytime?	a. Yes b. No
16. Were you able to successfully login into our web application?	a. YES, I was able to successfully login to my account with the right information in the homepage. b. YES, I was able to login but the information that was displayed was wrong. c. NO, I was not able to login.
17. Were you able to check your appointment details?	a. YES, I was able to view my appointment details without any problem. b. YES, I was able to view my appointment details with minor problem. c. NO, I was not able to view my appointment details.
18. Did you experience any problem setting an appointment?	a. No problems at all. b. Just some minor problem. c. I cannot set an appointment at all.

19. Were you able to update your profile without any problems?	<p>a. YES, I didn't encounter any problem.</p> <p>b. YES, but there was minor problem.</p> <p>c. NO, I cannot save the update I made at all.</p>
20. Did the button in the login page direct you to your profile?	<p>a. YES, the button directed me to my profile.</p> <p>b. YES, but the button directed me to a different page.</p> <p>c. NO, the button is not working.</p>
21. Were you able to view your dental records without encountering any problems?	<p>a. YES, I didn't experience any problem.</p> <p>b. YES, but I encountered some minor problem.</p> <p>c. NO, I was not able to view my records at all.</p>
22. Were the personal information you entered during the sign-up phase consistent to your profile?	<p>a. YES, all information is consistent.</p> <p>b. YES, but some of the information is not consistent.</p> <p>c. NO, all information is not consistent.</p>
23. Is the font size inside the text field for the username visible enough?	<p>a. YES, it is visible enough.</p> <p>b. YES, but it needs an increase in size.</p> <p>c. YES, but it needs an increase in the size and opaqueness of the text.</p> <p>d. NO, it is not visible enough.</p>
24. Were you satisfied that you were able to choose your preferred available date and time?	<p>a. Very Satisfied</p> <p>b. Satisfied</p> <p>c. Unsatisfied</p> <p>d. Very Unsatisfied</p>
25. How satisfied are you with your appointment schedule experience?	<p>a. Very Satisfied</p> <p>b. Satisfied</p> <p>c. Unsatisfied</p> <p>d. Very Unsatisfied</p>

Tally of UAT for Patients

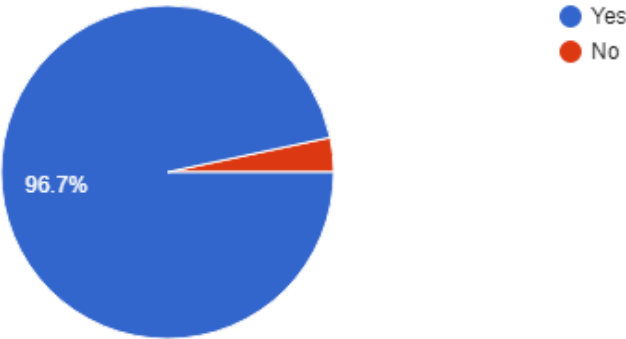

1. Were you able to successfully login into our system?

30 responses

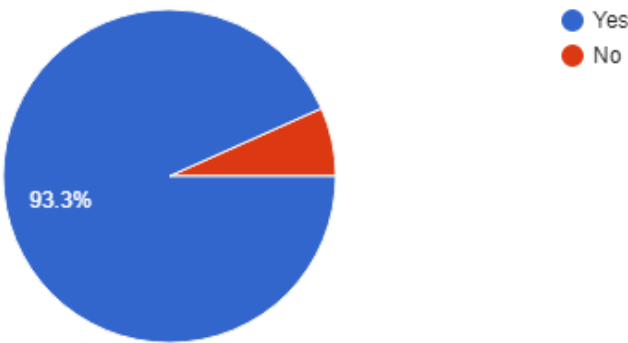

2. Were you notified when you entered an incorrect username/password?

30 responses

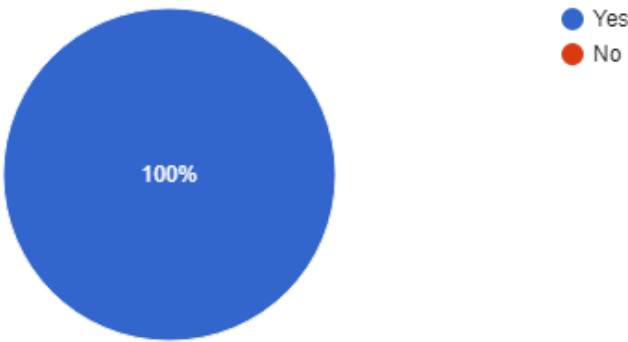

3. Were the personal information you entered during the sign-up phase consistent to your profile?

30 responses

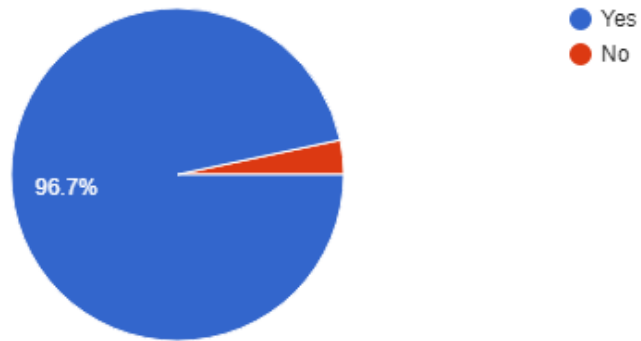

4. Were you able to update your profile anytime?

30 responses

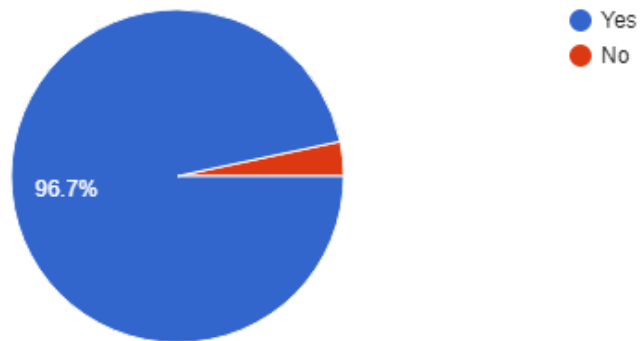

5. Were you able to update your profile without any problems?

30 responses

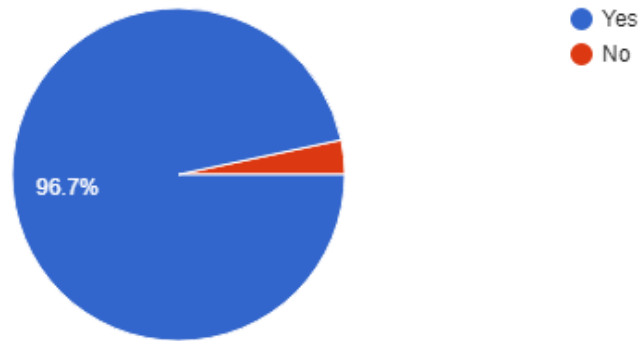

6. Were you able to upload your preferred profile photo?

30 responses

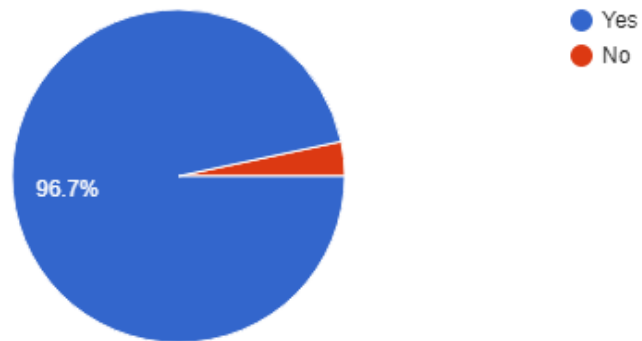

7. Were you able to save your updated medical history?

30 responses

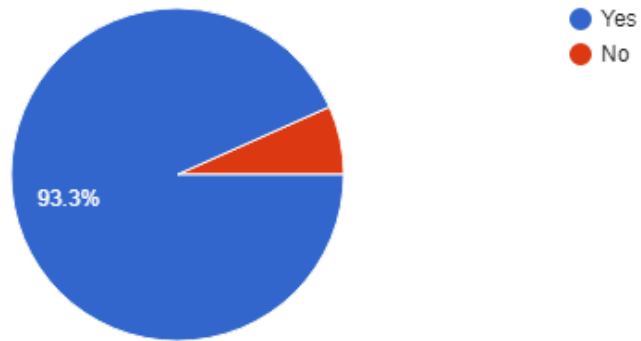

8. Were you able to see your dental records?

30 responses

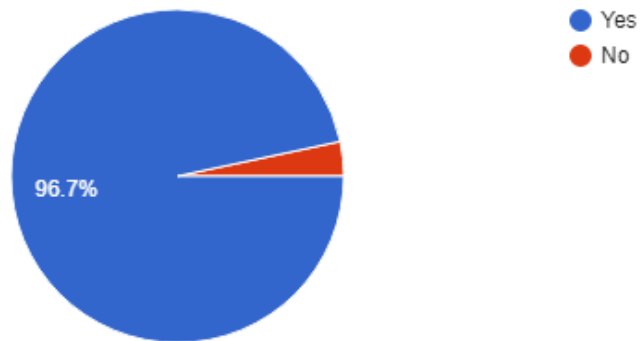

9. Were you able to see the schedule of the dentists?

30 responses

30 responses

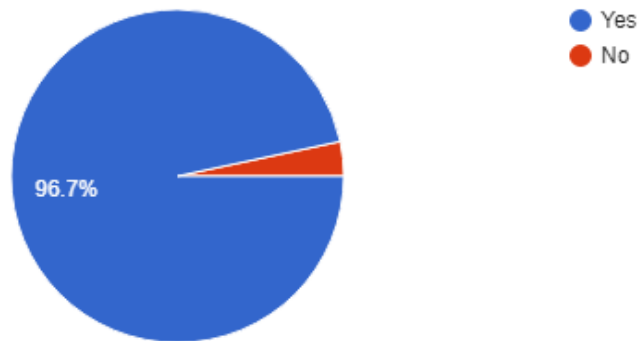

11. Were you able to see all available appointment slots?

30 responses

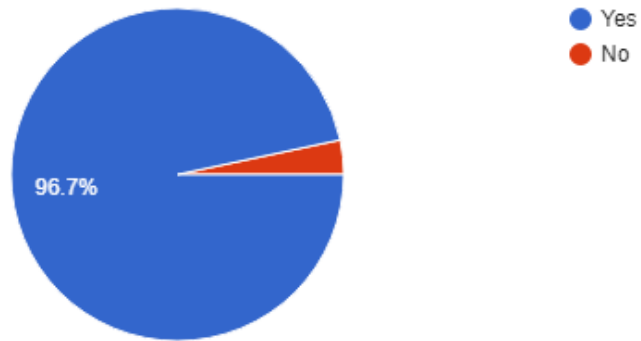

12. Were you able to choose your preferred date?

30 responses

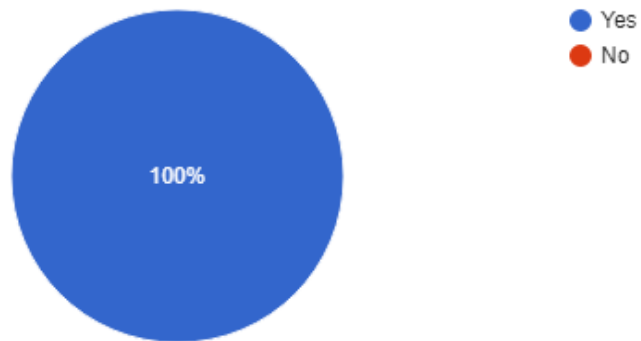

13. Were you able to choose your preferred time?

30 responses

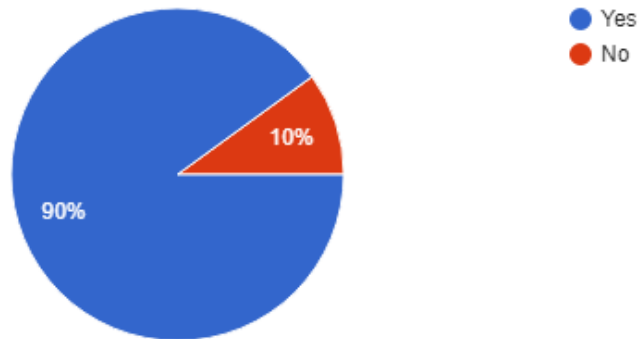

14. Were you able to check your appointment details?

30 responses

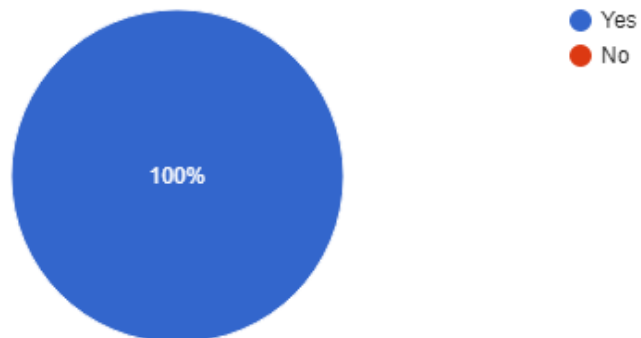

15. Were you able to download the parent consent form?

30 responses

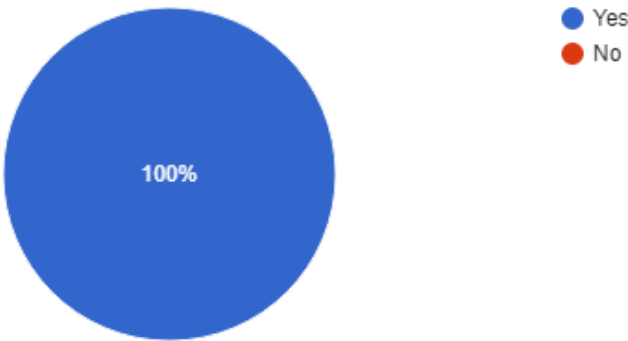

16. Were you able to see if your appointment is pending, confirmed or finished?

30 responses

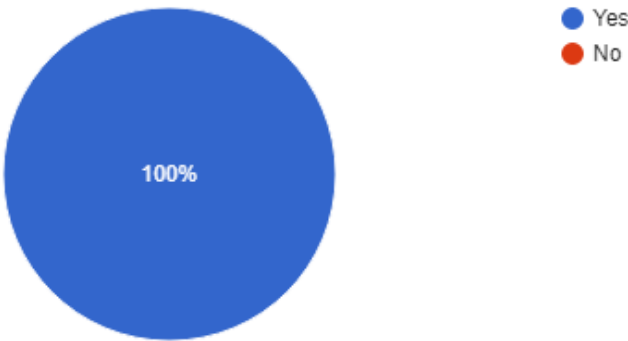

17. Were the verification codes sent to your email address without any problems?

30 responses

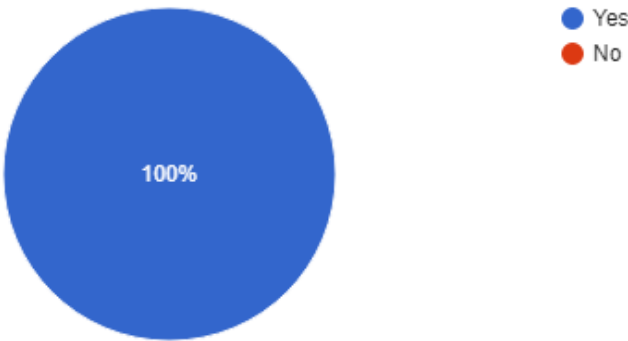

18. Were you able to successfully change your password after the captcha verification?

30 responses

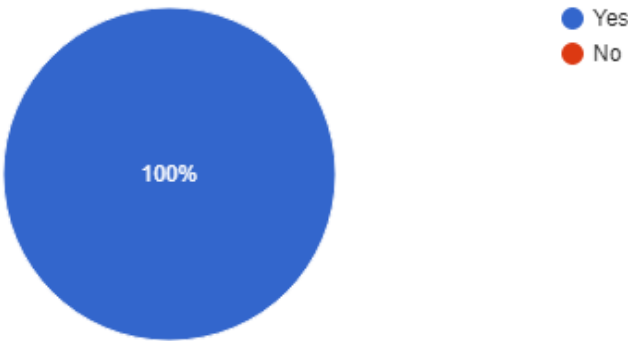

19. Is the notification that you've successfully changed your password useful?

30 responses

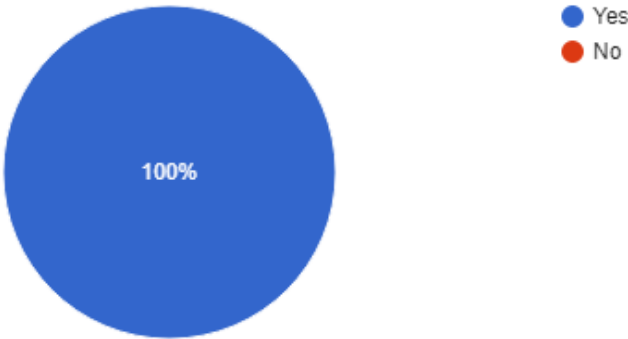

20. Was there a notification that notified you that you've typed the wrong password in the change your password tab?

30 responses

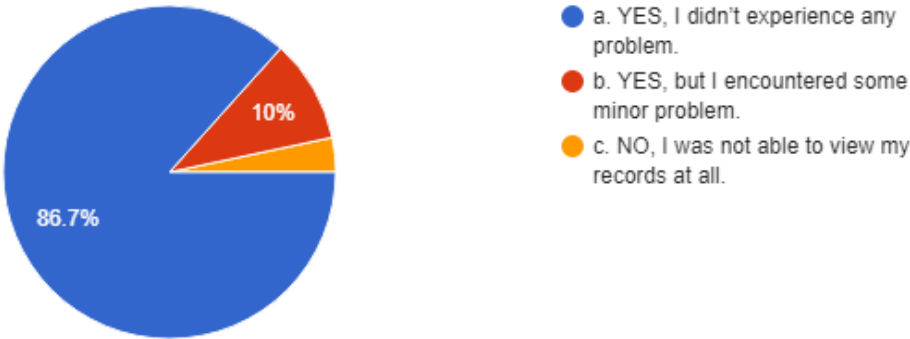

21. Is there a notification which informs you which fields are required to be answered?

30 responses

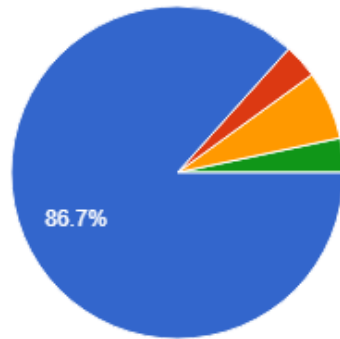

22. Were you able to view your dental records without encountering any problems?

30 responses

23. Is the font size inside the text field for the username visible enough?

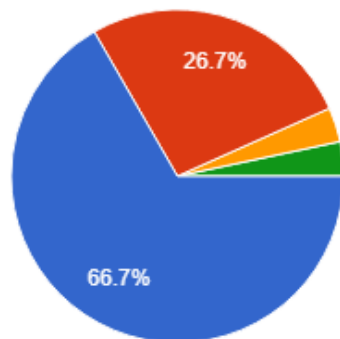

30 responses

- a. YES, it is visible enough.
- b. YES, but it needs an increase in size.
- c. YES, but it needs an increase in the size and opaqueness of the text.
- d. NO, it is not visible enough.

24. Were you satisfied that you were able to choose your preferred available date and time?

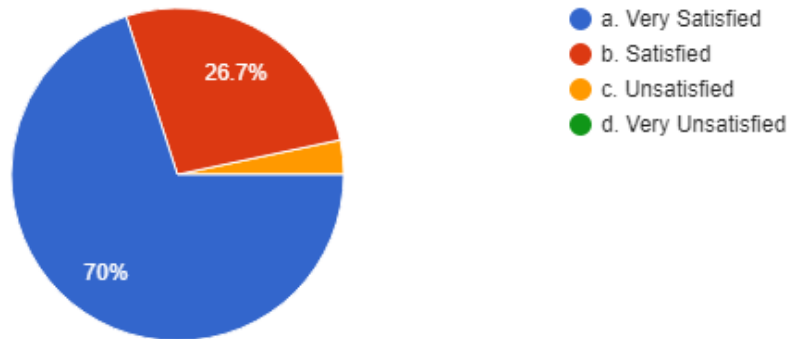

30 responses

- a. Very Satisfied
- b. Satisfied
- c. Unsatisfied
- d. Very Unsatisfied

25. How satisfied are you with your appointment schedule experience?

30 responses

Dentist Questionnaire

We are BS Information Technology Students from the Institute of Information and Computing Sciences- University of Santo Tomas. We are currently developing a system, DentEase, for the UST Health-Services Dental Care as part of our course requirement for Software Engineering (ICS 124). May we ask for a moment of your time to complete this survey to assess our project. Rest assured that all information gathered will be used for research purposes only.

Thank you and hoping for your cooperation!

Name: (optional) _____

Position: _____

Encircle the letter corresponding to your choice.

1. Were you able to successfully login into our system?	a. Yes b. No
2. Were you notified when you entered an incorrect username/password?	a. Yes b. No
3. Were you able to see your pending appointments for the week?	a. Yes b. No

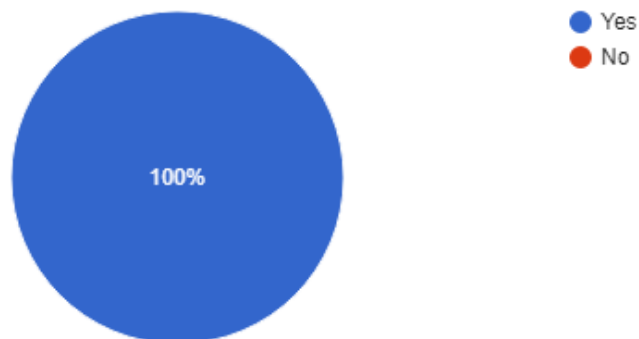

4. Were you able to see the profile of your patient?	a. Yes b. No
5. Were you able to update the dental records of the patient after the appointment?	a. Yes b. No
6. Were you able to reschedule an appointment of your preferred patient?	a. Yes b. No
7. Were you able to choose your preferred date?	a. Yes b. No
8. Were you able to choose your preferred time?	a. Yes b. No
9. Were the records of your treated patients accurate?	a. Yes b. No
10. Is the search function working on the records tab?	a. Yes b. No
11. Were you able to check your profile?	a. Yes b. No
12. Were you able to upload your preferred profile photo?	a. Yes b. No
13. Were you able to update your profile?	a. Yes b. No
14. Were you able to set/edit your schedule?	a. Yes b. No
15. Were you able to successfully change your password after the captcha verification?	a. Yes b. No
16. Were you notified that your password has been changed?	a. Yes b. No

17. Is the font size inside the text field for the username visible enough?	a. YES, it is visible enough. b. YES, but it needs an increase in size. c. YES, but it needs an increase in the size and opaqueness of the text. d. NO, it is not visible enough.
18. How satisfied are you with the functionalities of our profile page?	a. Very Satisfied b. Satisfied c. Unsatisfied d. Very Unsatisfied
19. How satisfied are you when you were able to set your preferred available date and time in the rescheduling phase?	a. Very Satisfied b. Satisfied c. Unsatisfied d. Very Unsatisfied
20. How satisfied are you on the accuracy of the patient's dental records?	a. Very Satisfied b. Satisfied c. Unsatisfied d. Very Unsatisfied

Function Point Analysis

Step 1									
Information Domain Value	Count		Weighting Factor						
			Simple	Average	Complex				
External Inputs	26	X	3	4	6		=		104
External Outputs	4	X	4	5	7		=		20
External Inquiries	8	X	3	4	6		=		32
Internal Logic Files	1	X	7	10	15		=		10
External interface Files	0	X	6	7	10		=		0
			125	166	247				
							Count-total =		166
Step 2									
rate each factor (Fi, 1 to 14) on a scale of 0 to 5									
F1. Does the system require reliable backup and recovery?									4
F2. Are data communications required?									5
F3. Are there distributed processing functions?									3
F4. Is performance critical?									2
F5. Will the system run in an existing, heavily utilized operational environment?									5
F6. Does the system require on-line data entry?									4
F7. Does the on-line data entry require the input transaction to be built over multiple screens or operations?									5
F8. Are the master files updated on-line?									3
F9. Are the inputs, outputs, files, or inquiries complex?									2
F10. Is the internal processing complex?									3
F11. Is the code designed to be reusable?									3
F12. Are conversion and installation included in the design?									3
F13. Is the system designed for multiple installations in different organizations?									0
F14. Is the application designed to facilitate change and ease of use by the user?									3
									1
							sum of Fi =		45
Funtion Point Metric =		count-total * [.65+.01*sum Fi]							
=		183							

Defect Removal Efficiency

Errors: 2

Defects: 6

$$2/(2+6)$$

$$2/8$$

DRE = 0.25

During the testing phase, we have found 2 errors that is residing in our system. After our system was implemented in the client's company, there were 6 defects that were addressed to us. The result of the computation of DRE is 0.25, which is close to 1. Our system has almost no defect.

Software Maturity Index

Number of modules in the current release (MT)	47
Number of modules in the current release that have been changed (Fc)	2
Number of modules in the current release that have been added (Fa)	5
Number of modules from the preceding release that were deleted in the current release (Fd)	0

$$\text{SMI} = [MT - (Fa + Fc + Fd)] / MT$$

$$MT = 47$$

$$Fa = 5$$

$$Fc = 2$$

$$Fd = 0$$

$$\text{SMI} = [47 - (5 + 2 + 0)] / 47$$

$$\text{SMI} = 0.85$$

Based on our system, we have implemented in our client's company with 47 modules released. During the maintenance, we have changed 3 modules, 5 modules were added, and 1 module that was deleted. After computing for the Software Maturity Index, a result of 0.85 was generated. Our software begins to stabilize because its SMI value is nearing the 1-point margin.
